شركة أبوظبي للمستلزمات الطبية
Abu Dhabi Medical Devices Company

a member of **adhp** Group

Welcome to Abu Dhabi Medical Devices Co. L.L.C.

Abu Dhabi Medical Devices Company (ADMD) was set up as a joint venture between ADNIP, UAE and NNE Pharmaplan, Germany in 1999. Began with a few categories of Single Use Syringes, ADMD rapidly expanded its market share and offerings by introducing a range of Single Use Syringes, Insulin Syringes, IV infusion sets and IV Cannula. Continued its endeavor to spread its wings in length and breadth, currently we are a leading manufacturer and supplier of Single Use Medical Devices in the field of Surgical Consumables.

As a business with a current outlook, we combine entrepreneurial vision with a strong business model built on high standards of product quality, safety and a sustainable working environment. We are open to embrace the advancement happening in the sector and keen in establishing our own organizational knowledge as a pathway to sustain and lead through as a competitive and customer friendly business model with a human face.

We manufacture our products in an array of connected processes managed systematically according to the standards of International Organization for Standardization integrated with the requirements of Good Manufacturing Practices guided by World Health Organization. We are certified for compliance with NS EN ISO 13485:2012, ISO 9001:2015, UAE MOH GMP and our products are CE Marked and WHO prequalified as applicable. All our operations are carried out in full compliance with good manufacturing practices using state-of-the-art manufacturing facilities, laboratories and equipments.

ADMD, all through these years, has been widely accepted for both its product quality and the service models globally. Our clients are spread in Middle East, Africa, Latin America, Indian Subcontinent and the Far East. These include respected Non-Governmental Organizations, Health Ministries and leading private sector companies in over 60 countries.

As breakthrough developments, in year 2003, as part of our contribution to injection safety, we commissioned a new production line dedicated to Auto-Disable (AD) syringes which will automatically become non-usable after their first use. We become the first and only manufacturer of Auto Disable syringes in the Middle East and Africa. AD syringes virtually eliminate the risk of patient-to-patient infection via blood-borne pathogens (such as Hepatitis B or HIV) because they cannot be refilled and reused. Today we are the only WHO approved manufacturer of Auto Disable Syringes in the Middle East producing over 400 Million Auto Disable Syringes annually.

Continuing its innovation, ADMD in year 2013, patented its Auto Disable Needles. Auto Disable Needles are automatically disabled after their first use to prevent a subsequent use. It can be attached to any Standard Single Use Syringe to literally transform it to an Auto Disable Syringe. Auto Disable Needle is rapidly gaining acceptance for this innovative idea. This is in line with the vision of WHO to spread the re-use prevented smart syringes in the Therapeutic Sector in its plan to eradicate the normal single use Syringes by year 2020, to assure a higher level of prevention to the transaction of blood borne diseases through re-uses of injection devices.

Today ADMD has, in addition, the major surgical consumable items to offer. Supplying over 40 families and over 400 variant models, ADMD can remarkably cater to the consumable needs of health care sector, and we are rapidly expanding further to add more products in our arsenal.

We proudly present you our new categorized product catalogue.

Regards

Chief Executive Officer

MEDECO Blood Set

Set Blood Administration, Pyrogen Free, Complete with 100ml graduated Chamber, Disposable, Sterile.

Item code. SFG-42001

Pkg Size: 500 pcs/Carton

Set Blood Administration, Pyrogen Free, Suitable for use with Blood Bag, Disposable, Sterile.

Item code. SFG-42002

Pkg Size: 500 pcs/Carton

MEDECO Burette Set

With cap vented Spike, 60 drop chamber, Air vent, injection site, Precision roller clamp, Y- injection site with finger grip, slide clamp, luer lock connector with cap, 150 cm to 200 cm.

Item code. SFG-13006

Chamber: 100ml
Size. 23G x 1½"

Item code. SFG-13008

Chamber: 150 ml
Size. 23G x 1½"

MEDECO IV Infusion Set with Latex Bulb

Set I.V. Solution Administration. P.V.C., Tubing with Vented Dripping Chamber Macro drip 20 Drops/1ml, Pyrogen Free, Length 150cm Disposable, Sterile.

Item code. SFG-13034

Size: 21Gx1½"
400 Pcs per Carton

SET: small size drip chamber with filter, air-vented, small size PE flow regulator, rubber injection site, luer slip with needle 21GX 1½, 150cm PVC tube, individually polybag, secondary 25pcs/PE bag, 500pcs/CTN.

Item code. SFG-13035

Size: 21Gx1½"
500 Pcs per Carton

MEDECO IV Infusion Set with 60 Drops

Set I.V. Solution Administration. P.V.C., Tubing with Vented Dripping Chamber Microdrip 60 Drops/1ml, Pyrogen Free, Complete, Length 150cm Disposable, Sterile.

Item code. SFG-13018

Without Needle

Item code. SFG-13032

Size. 21Gx1½"

MEDECO IV Infusion Set with Y Port

I.V infusion Set With Airvent, With 155cm Tube Length, Latex free Y injection site, with Luer lock, with needle, Complete set packed in soft blister paper pack.

Item code. SFG-13024

Size: 21Gx1½"
500 Pcs per Carton

Set I.V. Solution Administration P.V.C., Macro drip 20 drops/1ml, Pyrogen Free Hydrophobic Adequate Air Vent, Filter 15micron,flow control roller clamp,Tubing not less than 1.8 meter and Diameter I.D 3mm & O.D 4.1mm, Fitted with Needle G21 to Luer Lock Device for Injection of drugs with Y-injection site port, Disposable Sterile with Peel Off Packing.

Item code. SFG-13036

Size: 21Gx1½"
500 Pcs per Carton

IV set: 20 Drops/ml (Macro Drip Set), Small Size Drip Chamber,with filter, airvented,with regulator,latex free Y Port,luer lock with needle, 150cm PVC tube,Individual Pouch.

Item code. SFG-13037

Size: 21Gx1½"
25 Pcs / Poly Bag, 500 Pcs / Carton

Subject: GMP Compliance Letter

With reference to your compliance report in response to Drug Department/ MOH-UAE auditing team report and upon the follow up of the carried out audit, we would like to acknowledge that your company is complying with cGMP guidelines according to WHO standards & UAE (MOH) cGMP guidelines for the following production lines:

- | Production lines |
|---|
| 1. Manufacturing of Sterile Plastic Syringes and Needles, IV Set, IV Cannula, Blood Set, Burette Set, Scalp Vein Set and Stopcock. |
| 2. Manufacturing of Medical Tube Items: Oxygen Mask, Nebulizer Mask, Nasal Cannula, Venturi Mask, Endotracheal Tube, Ryles Tube, Feeding Tube, Suction Tube and Yankauer Set. |
| 3. Manufacturing of Catheters: Foley Catheters, Suction Catheters, Thoracic Catheter, Melaton Catheters. |

Your facilities will be inspected periodically at suitable intervals, and you can submit this letter to relevant regulatory bodies in other countries as an official assurance for your compliance with cGMP WHO standards.

This letter is valid for one year from the date of issue.

Dr. Ruqaya Aqeel Al Baztan
Acting Director of Drug Department

Certificate No.: 11410-2017-CE-ARE-NA-PS Rev. 0.0
Project No.: PRJG-215017-2010-PRC-ARE
Valid Until: 29 April 2020

This is to certify that the quality system of:

Abu Dhabi Medical Devices Co. L.L.C.

M-43, Plot No.124, Mussafah Industrial Area, P.O. Box 30485, Abu Dhabi, United Arab Emirates

For design, production and final product inspection/testing of:

Sterile Hypodermic Syringes for single use, Auto Disable Syringes, Insulin Syringes, Re-Use Prevention Syringes, Auto Disable Needle, I.V Cannulas, Scalp Vein Sets and Infusion Sets.

Has been assessed with respect to:

The conformity assessment procedure described in Article 11.3.a and Annex II excluding section 4 (Module H2) of Council Directive 93/42/EEC on Medical Devices, as amended

and found to comply.

Further details of the product(s) and conditions for certification are given overleaf.

Place and Date:
Havik, 26 October 2017

For:
DNV GL NEMKO PRESAFE AS

Alessandra Rinna

Note: The Certificate is subject to terms and conditions as set out in the Certification Agreement. Failure to comply may render the Certificate invalid.

MSC-CO-078 DNV GL NEMKO PRESAFE AS - Veritasveien 3, N-1363 Havik, Norway - Registered Enterprise No: NO 997 987 401 MVA Page 1 of 4

Certificate No.: 24384-2017-AQ-ARE-NA-PS Rev. 0.0
Project No.: PRJG-22337-2007-MSC-ARE
Initial Certification Date: 8 August 2017
Valid Until: 28 February 2019

This is to certify that the management system of:

Abu Dhabi Medical Devices Co. L.L.C.
M-43, Plot 124, Mussafah Industrial Area
Abu Dhabi
United Arab Emirates

Complies with the requirements of:

ISO 13485:2003/NS-EN ISO 13485:2012

The Certificate is valid for the following scope:

Manufacturing, Sales and Distribution of Sterile Hypodermic Syringes for Single Use, Auto Disable Syringes, Insulin Syringes, Reuse Prevention Syringes, Auto Disable Needle, Yankauer Suction Connection Tube, Oxygen Mask, Nebulization Mask, Nasal Oxygen Cannula, IV Cannula, Infusion Sets and Supply of Scalp Vein Sets and Three Way Stopcock.
